About

Koop Solutions LLC is a Service-Disabled Veteran-Owned Small Business (SDVOSB), certified by the U.S. Small Business Administration, specializing in advanced computing and enterprise IT modernization. Built on 20+ years of software development and mission-critical delivery, we help federal systems integrators translate complex technical requirements into fully operational capabilities.

We partner with government contractors on rigorous data engineering, secure multi-cloud architecture, and Generative AI integration. We understand the demands of federal compliance and bring experience working within FedRAMP constraints to deliver cloud infrastructure, automated workflow pipelines, and enterprise systems that accelerate federal adoption. Available as a prime contractor or teaming partner.

Core Capabilities

Data & Analytics	Data engineering, data warehousing, data analytics, ETL pipelines, business intelligence, and executive dashboards.
Cloud & Infrastructure	Cloud migrations across AWS, Azure, and Google Cloud; DevSecOps; network infrastructure.
Software & Modernization	Enterprise IT modernization, modern application design, full lifecycle software engineering, API development, database administration, and quality assurance.
Customer Experience & Communications	Telecommunications, call center and contact center modernization, unified communications, and customer experience (CX) platforms.
Strategy & Delivery	IT strategy, technology roadmaps, digital transformation, project management, Agile and Scrum, and workflow automation. PMP and CSM certified leadership.

Past Performance

Experience of key personnel.

Department of Defense (U.S. Army, U.S. Navy, USMC): eProcurement application development and enterprise product solutions.

United States Postal Service (USPS): Cloud architecture, data engineering, GenAI agent development, and Genesys modernization.

Department of Housing and Urban Development (HUD): Enterprise data warehousing and digital modernization.

Key Differentiators

SBA-certified SDVOSB	Certified by the U.S. Small Business Administration, with a robust teaming and partner network.
20+ years of experience	Deep expertise in enterprise systems design, software development, and federal delivery.
Multi-cloud engineering	Expertise across Microsoft, AWS, and Google Cloud ecosystems.
